PRINCIPAL'S WELCOME

Dear prospective students, parents and carers,

As Principal of South Bank University Sixth Form, it is my privilege to welcome you to a community that is proud to serve the young people of Brixton and the wider boroughs of Lambeth, Southwark, Lewisham, Croydon and beyond. Our roots are firmly planted in this vibrant part of London – a place known for its diversity, creativity and resilience. Those same qualities are at the heart of our sixth form.

I am fortunate to lead a team of outstanding educators who share my values and my commitment to transforming the lives of young people. Having dedicated more than 20 years to post-16 education, I know both the challenges and the incredible potential that exist for under-represented communities. That is why everything we do at SBUSixth is built on one belief: every student deserves the very best opportunities to succeed.

Our students' achievements are remarkable. In 2025 **we were proud to celebrate a 100% pass rate across all qualifications**, with 79% of A-Level grades at A*–C and 80% of BTEC results ranging from DDD* to MMM. Behind these numbers are stories of determination, support, and a community that never stops believing in its young people.

What makes us different? Three things stand out:

1. Wellbeing first. Every student has the right to feel safe, supported and valued. Student wellbeing – physical, emotional and mental – is our non-negotiable foundation.

2. Excellence in teaching and learning. Our teachers are experts in their fields who continually refine their practice to meet the needs of a diverse generation.

High standards and a love of learning are at the centre of our culture.

3. Real-world pathways. Though we are small enough to feel like a close-knit family, we are connected to hundreds of employers and industry partners. Our employer-led curriculum gives students direct access to opportunities in high-demand sectors: Engineering, Finance and Health – preparing them not just for exams, but with the skills and confidence to thrive in the future.

As part of the prestigious LSBU Group, we also open doors beyond sixth form: from higher education to degree apprenticeships, our students benefit from a powerful network that supports every stage of their journey.

We know that choosing where to study after 16 is a big decision. At SBUSixth, you will always receive impartial advice and personal guidance to help you find the pathway that is right for you.

I warmly invite you to visit us in Brixton – to meet our staff, experience our facilities, and most importantly, hear from our students themselves. They are the best ambassadors for what it means to belong to SBUSixth.

I look forward to welcoming you at one of our open evenings.

Kishan Pithia, Principal

OUR VISION & VALUES

At SBUSixth, we are on a mission to provide a unique and innovative approach to post-16 education. We deliver career-focused, industry-led, technical education in Engineering, Health Science and Business and Finance.

Our environment aims to give you a head start in high-demand employment sectors across London and beyond. We provide a nurturing learning environment for young people aged 16-19, and our expert team is here to support you every step of the way. We believe in applied education, so as an SBUSixth student, you won't just learn about technical skills in a classroom, you will engage with, and work alongside, leading employers in your chosen industry through valuable work experience and placements.

We don't believe in a one-size-fits-all approach to education, and our unique personalised support programme is tailored to meet the specific needs of each and every student; including high-quality educational support services and enrichment activities.

SBUSixth is part of the esteemed LSBU Group, which means you will have unrivalled access to further and higher educational opportunities, advice and guidance, and sought-after apprenticeship placements.

Our position within the LSBU Group, combined with our state-of-the-art

facilities, access to the latest technologies, industry-led curriculum and personalised support programme, are all perfectly designed to maximise your opportunities and ensure you reach your full potential; not just as a future industry professional, but as a positive citizen as well.

So, join us and experience the difference at South Bank University Sixth Form. You bring your ambition, and we'll provide you with the opportunity to shape your perfect future.

Innovation, Integrity and Intent

Our approach to everything which shapes your education here is driven by our three core values:

Innovation drives our teaching and learning, promoting creativity and problem-solving to prepare students for their future careers.

Integrity guides our professional conduct and inspires trust in our work and the character of our students.

Intent propels us towards excellence, empowering us to perform at our highest level and surpass our expectations.

OUR PATHWAYS

A Level and AAQ Pathway

SBU Sixth's A Level options focus on Biomedical Science and Engineering. The combinations of subjects offered in each enable progression to degree places at leading universities or higher apprenticeships. Advanced Academic Qualifications (AAQ) are a new qualification, equivalent to one A-Level and carrying UCAS points. The AAQ curriculum emphasises practical, career-focused skills.

Entry requirements for the A Level pathway are Grade 6 in GCSE English Language and Maths as well as at least three other subjects.

Biomedical Science

Includes Biology, Chemistry and Maths A Levels.

Business

Includes Maths A Level, and Business Studies and Finance Studies AAQs.

Engineering

Includes Maths and Physics A Levels, and Engineering AAQ.

T Level Pathway

T-Levels are exciting qualifications for Sixth Form students, combining a high standard of knowledge with career-focused skills and a long industrial placement.

SBU Sixth is now in its third year of providing T-Levels and our students to date have achieved excellent results, including 75% of Finance students receiving a Distinction in 2025.

Students select one specialism to study full time, with 80% of hours over the course in the Sixth Form and 20% on an industrial placement with a relevant employer.

The entry requirements for the T-Level pathway are GCSEs at Grade 5 in English Language and Maths, as well as at least three other subjects.

About T Levels

T Levels are a 2-year qualification that you can do after GCSEs as an alternative to A levels, other post-16 courses or an apprenticeship.

They have been designed with leading businesses and employers to give you the

knowledge and skills you need for a successful, sustainable career.

T-Level subjects

- Accountancy
- Engineering: Design & Development for Engineering
- Engineering: Structural Engineering
- Finance
- Health
- Science

Technical Pathway

Our BTEC and other Level 3 vocational qualifications provide a progression route into careers and degree courses. They focus on practical skills with a strong emphasis on relating study to the workplace.

Subjects

- Business
- Engineering
- Health
- Science: Biomedical or Forensic

Foundation Pathway

Our Foundation (Level 2) pathway offers ambitious students who narrowly miss the GCSE grades for the above pathways to join our Sixth Form. The Foundation programmes offer Level 2 qualifications taken over one year alongside English Language and/or Maths GCSE retakes.

Subjects

- Business
- Engineering
- Health
- Science

University-level

SBU Sixth is introducing HNC courses (equivalent to Year 1 of a degree programme) from summer 2026. Please speak to us for further details.

Not sure what to choose? See page 19 for some advice!

YOUR STUDY PROGRAMME

At SBU Sixth, you don't just get a qualification in your subject area, you develop a range of skills and experiences to broaden your education and enhance progression opportunities.

Your study programme will include:

- Your core course and qualification
- Skills Award – an award to demonstrate your transferable skills such as communication, problem-solving and teamwork (Accredited by LSBU, subject to confirmation).
- Independent Study Programme. At the start of your course, we will ensure you have the skills to research and learn effectively while on private study time. We then give you access to the facilities you need – private study areas, computers and online resources to make the best use of your sixth form when you are not in timetabled lessons.
- Tutorial – a scheduled slot each week when you will cover essential materials for all students in your tutor group. You can also speak with a tutor on a private basis if you have any support needs or concerns over anything affecting your learning.
- Work placements – fantastic opportunities in the UK and overseas through the Turing Scheme.
- English and/or Maths GCSE if required.

Enrichment

Our enrichment activities help you enjoy and make the most of your years at SBUSixth. At the start of each year, our 'Freshers Fair' gives new students the chance to tell us what activities they would like outside the classroom. We then provide a responsive enrichment programme of clubs and activities available to all students.

The enrichment programme teaches students new skills improves students' wellbeing and supports personal aspirations. Enrichment also helps develop skills useful for their life and career, for example leadership, communication, team-work, commitment and responsibility.

Enrichment activities include:

- Sports including Football, Basketball, Badminton, Table Tennis, Boxing & Fencing
- Chess and board games
- Gym and fitness
- Faith groups
- Choir and Music
- Debating and Public Speaking
- Flight Simulators & Robotics
- Computer maintenance and AI
- Student ambassadors

SUCCESS STORIES

Maripaz Mladin Engineering, 4 Years at SBUSixth

Grades: Triple Distinction Star

What I loved about SBUSixth: "Fantastic support with the course and planning my future career."

Destination: Degree Apprenticeship in Engineering with Jacobs and LSBU.

Clarissa Nestor Health & Social Care, 2 Years at SBUSixth

Grades: Triple Distinction

What I loved about SBUSixth: "Helpful teachers who encouraged me to believe in myself and achieve more, like becoming a StJohn's Cadet"

Destination: BSc Paramedic Science at Herts University

William Ruddock Engineering, 2 Years at SBUSixth

Grades: Triple Distinction Star

His tutor says: "He proactively seeks out learning opportunities and has mastered the many machines and technologies available in the sixth form"

Destination: BSc Aerospace Engineering with Pilot Studies at University of West of England

Krishina Muhem Science, 2 Years at SBUSixth

Grades: Maths, Biology & Chemistry A-Level Grade A

What I loved about SBUSixth: "I had to start Sixth Form a couple of months late but SBU Sixth supported me to catch up. My teachers were always there to help and run extra sessions."

Destination: Medical Degree at a university in Europe

Abdulsalam Keji Business & Finance, 1 Year at SBUSixth

First Year Achievements: Highly Commended in SBA Trust Chair's Awards; work placement at Capgemini; networked with leading UK entrepreneurs such as Dean Forbes & Tim Amoo

What I love about SBUSixth: "So many opportunities! Workplace visits, guest speakers, masterclasses from different sectors. Every week opens up new possibilities!"

BUSINESS & FINANCE

In the fast-paced and ever-developing business and finance sector, sound knowledge of theories and models combined with soft skills such as problem solving, communication and teamwork will prepare you for success. SBU Sixth's courses are designed for the leaders, entrepreneurs and finance and investment professionals of the future.

About business and finance at SBUSixth

The business and finance curriculum at SBU Sixth is designed to ensure you are equipped to adapt and evolve with the changes. Learning is continually related to real-world examples, whether from our expert teaching team or the many guest speakers that will visit during the year.

Our business skills suite is designed to mirror the workplace, using professional software and techniques to expand your skills and confidence. For example, you will develop your ability to create your own ideas and 'pitch' them to an audience of peers and professionals. You will also learn about the latest 'FinTech', such as blockchain, and how this is shaping the future of the financial world.

Careers

While many of our students aspire to create and run their own business, the leadership skills our course develop are in demand from all economic sectors. The need to manage people, technology and resources efficiently has never been more important – whether this is to ensure organisational success or help reduce the impact of economic activity on the environment.

Just some of the dynamic careers these skills will prepare you for include: accountancy; banking and investments; management consultancy; entrepreneurship; human resources management; events; digital marketing; senior leadership; professional development coaching.

Professional Partnerships

Through our extensive network of employer partners, you will have the opportunity to gain highly-valued work experience, expert business mentoring, and valuable professional networking opportunities. Our business students have heard from over 20 guest speakers in the last year, in roles such as banking, wealth management, account management, FMCG, events and marketing. They have also met people involved in some of UK's the most successful business start-ups.

Also in the past year, Business students ran their own recruitment fair, attracting over 200 visitors. The students also staged a range of fund-raising and charity events including sales and film screenings.

ENGINEERING

The world of Engineering is a wide-ranging, rapidly-evolving sector that shapes the world around us. Crucial to the functioning of modern society and the economy, engineering relies on the ingenuity, precision, and technical skills of its professionals.

About engineering at SBUSixth

Whether you're interested in mechanical, electrical, or civil engineering, at SBUSixth, we have everything needed to prepare you for a career in this constantly evolving and dynamic sector.

Our state-of-the-art engineering labs are expertly-equipped to allow you to turn theory into reality, and gain real-world practical experience in a safe and controlled environment. You will develop essential knowledge in areas such as critical thinking, Computer Aided Design (CAD), problem-solving, and collaborative working practices; and develop the industry skills needed for professional life as an engineer.

SBUSixth's dedicated Engineering team are all experts in their field, and they'll use their knowledge and understanding to support you on every step of your journey. Not only will you develop your core knowledge in engineering principles, mathematics, and physics, but you will also be taught about the latest industry trends and technologies to help you stay ahead of the curve.

Careers

With an Engineering qualification from SBUSixth, you will have the tools to build your own future. Our courses open up a wide range of progression pathways to you; including progression to Higher

Education at LSBU's School of Engineering, following successful completion of the course. Our graduates have gone on to work in a variety of engineering roles in key economic sectors, such as construction and civil engineering, transport, communications, power, robotics and electrical engineering.

Professional Partnerships

You will benefit from our long-standing partnerships with globally-respected engineering companies and sector bodies. For example, we run regular sessions with the Construction Youth Trust, opening up opportunities for students to gain experience in civil engineering and construction.

Our students also benefit from the links to higher education provided by LSBU, with practical sessions and guest lectures hosted at the university.

Recent SBU Sixth alumni have progressed onto Higher Apprenticeships with major construction firms such as Jacobs and Gardner & Theobald. Work placement opportunities ensure students have the chance to engage with real-world projects and gain valuable practical experience with employers. Whether you're interested in renewable energy, smart cities, or sustainable infrastructure, we have an exciting opportunity to match.

HEALTH & SOCIAL CARE

The Health pathways at SBU Sixth open up a range of opportunities for rewarding careers. Whether you see your future as providing direct care for others, or if your interest is more around the science of medicine, physiology and therapy, you can take the next step in your career path here.

About health and social care at SBUSixth

You will work in a challenging yet friendly environment, based at our specialised and state-of-the-art Health Facility. Lessons are hands-on, innovative and practical, and you will also benefit from a professional work placement, so you will be work-ready by the time you complete your chosen pathway.

Our supportive team of tutors are committed to helping you achieve your goals, and will guide you through every step of your journey; teaching you industry-essential subjects like anatomy, nutrition, and biochemistry. With a focus on a person-centred approach to care, you will be prepared for a successful and rewarding career.

LSBU Group has an outstanding, nationally-renowned reputation for providing Health education of the highest quality. In fact, 1 in 10 of all nurses in London have been trained by LSBU. With a Health qualification from SBUSixth, you will be part of this proud legacy and a huge step closer to achieving your career goals.

Careers

Our innovative Health courses at SBUSixth have been designed in direct collaboration with the NHS and its supply chain and linked organisations, so whether you're interested in becoming a nurse, working in public health, healthcare

science, or exploring another clinical or healthcare field, our expertly designed curriculum will give you the knowledge, skills and understanding you need to succeed.

There are a huge range of professional roles associated with the health sector. Just some of the jobs in the sector include: clinical research, children's nursing, midwifery, pharmacology, physiology, social care, nutritionist, medical technology, care management and planning, paramedic and we have a range of stimulating opportunities available for you to explore.

Professional Partnerships

Thanks to our long-standing partnerships with the NHS, you will get to work on real-world projects, and gain valuable hands-on practical experience. Not only are Health qualifications from SBUSixth hugely-respected in their own right, they also open up a world of educational and professional opportunities. You could progress to a degree at LSBU's Institute of Health, following successful completion of the course, and really kick-start your journey to a fulfilling career, in a wide variety of healthcare roles.

Our partnerships with the NHS offer a range of apprenticeship opportunities, so you can gain real-life work experience, such as through the NHS Cadetship scheme, which all our students join and can even lead to a permanent job.

SCIENCE

There is a growing need for qualified professionals throughout the health and medical fields and other career sectors. SBU Sixth's specialist lab facilities, connections to health and engineering employers, and unique relationship with LSBU ensure current industry practice will be at the centre of your science education.

Alongside laboratory study, you will get to work with our specialist facilities in health, including hospital simulation ward. LSBU Group has an outstanding, nationally-renowned reputation for providing Health education of the highest quality.

Careers

Science is of course at the heart of the medical profession, but there are an increasingly wide range of sectors and their supply chains that rely on scientific knowledge and innovation.

Through your scientific study at SBU Sixth, you could progress to career paths in engineering, transport, medical technology, teaching and research, pharmaceuticals, food technology, the space industry and the energy sector, to name just a few.

Professional Partnerships

Our links to London South Bank University and the NHS provide many exciting opportunities for science students. For example, Forensic Science students will take part in simulated crime scenes at LSBU's specialist facilities. Links with the NHS and its supply chain enable our students to benefit from workplace visits, guest speakers, and trips to trade events.

INDUSTRY CONNECTIONS

SBU Sixth's employer partnerships and industry connections are a key reason why we are perfectly positioned to provide exceptional real-world relevant, employment-focused education.

We have long-standing and extensive partnerships with leading employers and professional organisations in the Engineering, Health, and Business and Finance sectors.

Not only do these partnerships offer you unrivalled access to experiences and opportunities that will prepare you for a successful career, but our curriculums are designed in collaboration with our employers, ensuring they teach you the knowledge and skills needed for success your career.

These partnerships give students access to employment-focused projects, targeted apprenticeship advice, one-to-one CV workshops, and employer-led 'takeover' days.

If a career in the health sector is what drives you, then we have Guy's and St Thomas' NHS Foundation Trust – one of the country's largest hospital trusts with a reputation for medical progress and innovation – and King's College NHS Foundation Trust – a world-class hospital at the heart of the South London community, with a reputation for clinical excellence and world-leading research – as partners.

These partnerships provide you with:

- Expert guest lectures
- Workplace visits
- Work experience
- Industry-focused curriculum projects.

In fact, our entire Health curriculum has been designed in collaboration with

the Trusts to ensure you develop the sector-specific knowledge, skills and understanding required to achieve your career goals.

When you join us at SBUSixth, you will gain real-world learning experiences, industry-relevant knowledge, and valuable networking opportunities with some of the most respected and successful companies in the country.

Industry Placements and Mentoring

At SBU Sixth we fully prepare you for the real-life work environment. A key aspect of this is industry placements and mentoring programmes. These programmes enable you to gain hands-on experience, develop industry-specific skills, and make valuable networking connections within your chosen sector.

You will have the opportunity to experience professional placements with globally-renowned companies such as Mitie, HSBC and more. You will gain valuable experience working on real-world projects, and gain an array of skills and practical knowledge that you couldn't achieve in the classroom alone.

In 2025–26 we are also delighted to be offering international work placement opportunities through the prestigious Turing Scheme.

SUPPORT & WELLBEING

SBUSixth has created a nurturing, supportive, diverse, and inclusive learning environment for all our students, and when you enrol with us, we don't just focus on your academic success, we also place great importance on your mental and personal wellbeing.

We have a support team that works to build a strong, positive relationship with you and your parents / guardians. They understand that you are an individual and no two students share the same personal journey, and strive to ensure that your time with us here will be happy, healthy and successful.

You will also be assigned a Learning Coach who will lead a weekly session with your tutor group each week, ensuring you have the support you need to succeed academically, emotionally, and socially.

Our commitment to providing high-quality personalised care, includes Social, Moral, Spiritual, and Cultural (SMSC) support, personal development, careers guidance, work-related learning, VESPA Mindset and our unique Skills Award.

You will receive evidence-informed careers advice and guidance on a wide range of educational and professional pathways. You will also benefit from personalised individual support, enrichment activities, employer-led projects, and a guaranteed two-week work experience programme.

We are serious about mental health and understand the challenges young people face. For this reason, we will provide you with a range of wellbeing and enrichment activities that support your mental health

and attitude to learning. We warmly welcome students that are in care and those with an Education, Health and Care plan (EHCP) and strive to ensure that your support needs are met.

SBU Sixth has robust safeguarding systems. We have a zero-tolerance policy towards bullying and provide a confidential reporting system for all students. Everybody at SBUSixth has a voice, and every voice is valued.

FINANCIAL SUPPORT

Joining SBU Sixth is an investment in your future – if you study hard with us over 2 or 3 years, your career opportunities will be greatly enhanced. We can help with support to ensure that everyone has access to education with us.

Although our courses are free, we know that sometimes the costs of life and travel can be make things hard. That's why we offer a range of financial aid options to help support you, should you need it.

Free Meals

If you are eligible for free school meals, you can apply to receive them while you are studying at SBUSixth.

Bursaries

Should you experience financial hardship whilst studying at SBUSixth, you may be

entitled to a support bursary (assessed on your individual circumstances) to help with costs such as transport and any equipment required to complete your course.

Student Discounts

Upon enrolment you will be entitled to a range of student discount cards and savings' programmes, such as the NUS TOTUM card and UNiDAYS. These discounts can be used on a variety of products and services, including clothing, food, travel, and much more.

FACILITIES

SBUSixth is a purpose-built and equipped specialist technical sixth form, providing students with industry-standard labs, workshops and equipment, cutting-edge IT; and a range of specialised resources.

The campus, built as a specialist educational facility in 2017, has a large cafe and social area, courtyard, well-equipped gym, library, two areas for private study, and simulator room.

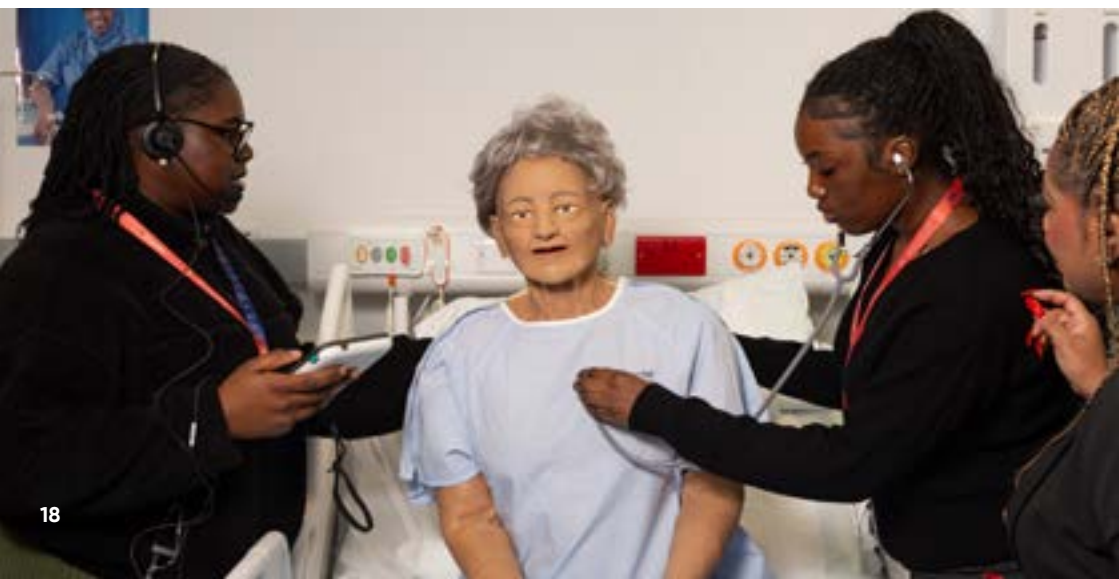

Digital Technology: You will work with the latest digital technologies, and learn to operate the preferred IT equipment of your chosen industry. You will have the opportunity to think, design, and analyse in a digital environment, and access gaming technology, 360-degree video, virtual reality, robotics, 3D printing, and Computer Aided Design.

Specialist resources: We have invested heavily in our engineering labs and workshops, digital engineering facilities, and modern science labs, and they are

expertly designed and fully-equipped with industry-standard tools and apparatus. In addition, our health facilities feature professional equipment and resources such as our high-tech simulated hospital ward.

Professional environment: The world of Business and Finance is driven by technology, and when you study at SBUSixth you will be taught to master a suite of specialist software – the same software that industry professionals use – and have access to the latest, cutting-edge, IT equipment and technology. You will also benefit from our extensive network of business employer partners; giving you a head-start in your quest for a successful and dynamic career.

Photo: students assess an animatronic 'patient' in our Dame Elizabeth Anionwu Simulation Ward.

APPLYING & JOINING

It is straightforward to apply to SBU Sixth and we welcome applications from anyone interested in our subject areas. Of course, we would love you to join us, but you are not committed at application or offer stage, and like most Sixth Forms and colleges, we encourage you to have a good look round and choose the best option for you.

However, with our facilities, course offer and results, we are confident that SBU Sixth will be a great choice for you! Once you decide to apply, the process is very easy.

Just go to our website, and you will find the application section from any of our courses or the home page menu. If you have any questions or need help or advice, then simply contact our admissions team.

Following your application, we will invite you in for an interview. This is an opportunity for a chat with specialist subject tutors about the detail of the course, and how it may align with your skills and ambitions. You can also ask any questions you may have about your preferred course, or student life at SBUSixth.

At the interview evening, you will offered a place at SBUSixth. Your offer will confirm what grades you will need to take up a place on your first choice of course.

In late June, you will then be invited to attend a welcome event, which will provide a taste of what life at SBU Sixth will be like.

Entry Criteria

A Level	Minimum of 5 GCSEs at grade 6 or above including English Language, Maths and Science
T Level	5 GCSEs at grade 5 including English Language, Maths and Science
BTEC	5 GCSEs at grade 4 including English Language and Maths
Foundation	5 GCSEs at grade 3 including English Language and Maths

Entry criteria are set to prioritise the success of each individual.

We will then send you an appointment to enrol, on or soon after GCSE results day in late August. This is the stage that you are confirmed as a student with us.

If you have any questions or need any assistance with your application, please don't hesitate to contact us.

NOT SURE WHAT TO CHOOSE?

Subject choice

Think about what your strengths and ambitions are. If you are not sure which subject to apply for, coming to one of our Open Evenings may help, as you can chat to teachers and students, and see work and facilities in each area.

At application stage, you are not committed. Applying and getting an offer from us will ensure you have a place available here. If you do change your mind before you enrol, we will transfer your application.

Choosing your qualification

Not sure which of A-Levels, T-Levels or BTECs will be right for you? Don't worry – again we can help you decide at Open Events, Interviews or enrolment.

All three options can lead you to Higher Education, degree apprenticeship, or directly into employment. Talk to us or check out our website course pages. If you're not sure, we will help you find the best fit for you at enrolment, based on your GCSE grades, career goals and study preferences.

CREATE YOUR FUTURE.
