# AN INTRO

## About us

We opened to students aged 14-19 in Brixton in September 2016 with a vision to develop young people with the skills and knowledge for successful careers in the Finance, engineering and health industries. Our specialised curriculum benefits from incredible facilities that are the envy of many colleges and universities. Located close to the heart of Brixton, a diverse, vibrant, and inspiring place to work and learn, we enjoy excellent transport links to South and central London.

# WHY US?

We are looking for partners to work collaboratively with us and help shape the future of our students. You will be able to help us break down barriers and level up. Our goal is to provide unique opportunities for career and professional development that isn't available elsewhere. We do this through our highly ambitious specialisms in finance, health and engineering. We work with business sponsors to shape our curricula and qualifications, ensuring our learners leave ready to continue successfully on their professional journeys. We deliver a portfolio of GCSE, BTEC and A-level qualifications and our core values of INNOVATION, INTEGRITY and INTENT help guide students and staff alike towards excellence.

Alongside helping to impact young lives, there will be many benefits to the sponsors. These will include: access to future employees, brand awareness, staff development opportunities and delivery of your social mission. Your investment in the UTC will be reflected on our website and within the building as the partnership brands are shared and promoted widely.

Our mission to maximise achievement through innovative teaching and learning is supported by London South Bank University and our Industry partners. As an employer, you would have the opportunity to help co-create the curriculum and develop a professionally ready workforce tailored to your needs. We are proud that our students benefit directly from real-life employer challenge projects, delivered in conjunction with our sponsors and designed to develop authentic, contextualised learning. As a result, our students are motivated and highly engaged by the offer of a professional learning environment.

Join us to help inspire the future.

# OUR PACKAGES

Our sponsorship levels are designed to acknowledge the range of different arrangements that could work for companies and the UTC and their individual needs and circumstances. We currently offer three sponsorship packages: Bronze, Silver and Gold.

All sponsorships have a core investment made by the sponsor to the UTC that includes the support of Curriculum-based experiences, Work Experience, Business Mentoring, and work-based opportunities. This allows the sponsor to select the best level of commitment for their needs. In initial meetings, we would be able to work through the details of the relationship and tailor the package to suit.

## BRONZE PACKAGE

**Bronze (4 out of the 5 bullet points to be delivered annually)**

### Investment

- £1k investment into UTC (Spending mutually agreed)
- Delivery of 1+ curriculum experience during Academic Year
